

WTCW Emerald Bay Camp, Avalon, CA – March 20-23, 2026

Advanced Tree Climbing Workshop - Prerequisites

This WTCW Advanced Tree Climbing Workshop is designed for tree climbers who possess the ability to climb a tree without supervision or peer support.

People shall be confident and competent conducting the following skills before considering attending this event; if you have doubt, please contact us at: info@wtcw.org for further details.

- ☐ Shall be able to identify and communicate all necessary PPE for tree climbing.
- ☐ Shall be able to identify, communicate about, and inspect their own tree climbing equipment.
- ☐ Shall be able to install their own climbing system.
- ☐ Shall be able to move freely around a tree's canopy with confidence.
- ☐ Shall be able to limb walk further than a body's length from the trunk of the tree.
- ☐ Shall be able to advance their own climbing line while aloft.
- ☐ Shall be able to ascend and descend securely to and from 50' aloft with confidence.
